

Goals

- Injector
 - Decide (with reason) which injector elements to use
 - Start Injector CAD
- Nozzle
 - Need shape ASAP
 - Math on temp stuff started?
- Fluid System
 - Get structure in place to help with size determination
- Turbopump
 - Keep reading and brainstorm ideas

Notes

- Patrick's current turbopump thoughts
 - Gas generator also gasifies propellants in order to cool and pressurize tanks
 - Pancake gearing style
- Buy AeroRocket & Run script for bell nozzle
- Carbon deposits effect on cooling needs to be considered
- Still swirlers for now
